My VCR is broken and I can't watch any of my favorite programs. To make things worse, the repairman forgot the appointment, so I'm hoping you can help fix things. Clues are of four types, with an equal number of each: Play, which are to be entered unaltered; Rewind, which are to be entered in reverse; Fast Forward, which require every letter to be changed to the next letter in the alphabet; and Eject, which jut out of the side of the grid. The letters on the outside of the grid, reading clockwise from a letter to be determined, will describe what the repairman has in common with my VCR.

OFF THE RECORD
